## PRES. WILSON APPEALS TO THE AMERICAN PEOPLE TO REMAIN NEUTRAL IN CRISIS

*Urges Public to Refrain From All  
Partisanship in the Present  
European Conflict*

*Emperor of Germany Sends Message to  
America Defining Position in Struggle;  
No Answer to Japanese Ultimatum*

WASHINGTON, Aug. 18.—The earnest determination of the United States government to keep this country from becoming involved in the European war was manifested in several ways today.

President Wilson issued an appeal addressed to the American people, calling on them studiously to refrain from any expression or act which might reveal the slightest partisanship toward the nations in conflict. Leaders in congress of all parties voiced similar views.

Official information came from Berlin that the Japanese ultimatum had been delivered to the German government and it was intimated in the diplomatic dispatches that war between Japan and Germany was not unlikely. The Japanese minister at Berlin, apparently foreseeing such an eventuality, asked Ambassador Gerard to be prepared to take over Japanese interests in Germany.

**Kaiser Sends Message to U. S.**  
The president received from Emperor William a long message transmitted through Ambassador Gerard, the contents of which were guarded closely, but which, it was learned, expressed the grateful appreciation of Germany for the tender of good offices made by the United States.

The German emperor, in addition, took occasion to point out at some length the causes of the present war, and argued, it was understood, that at the time he was writing to mediate between Austria and Serbia, the Russian mobilization began. His statement is said to follow the lines of previous official utterances from Berlin. It was this message which Emperor William wrote while sitting with Ambassador Gerard in his picturesque garden in the midst of his war maps.

**Defines Germany's Position.**  
White house officials denied that the message contained any protest concerning the attitude of the American press toward Germany. It was confined entirely to a statement of the German emperor's position. Officials admitted that there was nothing in it which could be construed as an indication of whether the emperor would at any future time accept the tender of good offices.

The Japanese ultimatum demanding that Germany evacuate Kiaochow and withdraw her fleet from the orient was understood to be the occasion of the mobilization of activities which the European war situation has brought on all government departments.

Discussion was general as to how the interests of the United States might ultimately be affected, and while there was a careful reticence on all sides, it was obvious that a feeling of relief followed the assurance given at London that should Japan take action against Germany, such activity would be confined to the China seas and German territory in eastern Asia, and not against insular possessions in the middle Pacific, where also the United States has islands of strategic importance.

Baron China, the Japanese ambassador, had a conference with Secretary (Continued on Page Three.)

## U. S. AND MEXICO WERE NEAR WAR

**PRESIDENT STOOD PAT  
AGAINST CABINET**

*Urged to Send an Army to  
Mexico City Within the  
Next Fortnight*

WASHINGTON, Aug. 18.—Just how close the United States came to being involved in a war with Mexico as recently as a fortnight ago, was revealed today by some high officials of the administration.

When General Carranza abruptly rejected the overtures of the peace envoys sent by Provisional President Carbajal, and at the same time ignored the diplomatic efforts of the American government to bring about a peaceful entry of the Constitutionalists into Mexico City, drastic measures were urged upon President Wilson. Many of the cabinet members said a majority argued in favor of sending American troops from Vera Cruz to the Mexican capital to prevent the anarchy that was then expected to follow from the failure of the Carbajal government and the Constitutionalists to reach an agreement.

President Wilson, however, firmly resisted all pressure, arguing that the sending of American troops to Mexico City, even on a mission of order, would probably mean war with the approaching Constitutionalists. A few days later actual overtures came from the Carbajal government in an indirect way to the effect that if American troops would come to preserve order they would not be opposed, but assisted.

These assurances, according to official messages here, were given by Minister Lujan of Carbajal's cabinet, with the authority, it is said, of Carbajal. Other promises were made. The United States was to be given a coaling station in Magdalena bay, the Chimalac claims were to be adjusted, and many other things of particular interest to the American government were to be arranged.

The president rejected all approaches of this kind, believing the Constitutionalists would themselves maintain order when they reached Mexico City. He gave his attention instead to the problem of the split in the south between Villa and Carranza and favored his efforts to bring about the leaders of the two factions to a provisional government recognized by all factions might be set up.

**Capital Remains Quiet.**

MEXICO CITY, Aug. 18.—Perfect order has been maintained in the capital since its occupation by the Constitutionalists. The authorities are overlooking no opportunity to make conditions secure. The call for the delivery within eight days of arms in the possession of the inhabitants of the capital is meeting with a general acquiescence.

It was decided today to search passenger and freight trains leaving the capital, in order to guard against the shipment of arms to the outside districts. Passenger and freight traffic, therefore, was suspended pending the drawing up of regulations for the search. It is expected that the trains will move again tomorrow. Incoming trains were not affected by the order of suspension.

General Carranza's headquarters is being moved to the outskirts of the city in preparation for the triumphal entry into the capital of the new provisional president next Thursday.

## MAINE SHOULD SET THE EXAMPLE, SAYS COLONEL ROOSEVELT

**Progressives Stand for Pro-  
perty, Let's Pass It  
Around, He Urges**

PORTLAND, Me., Aug. 18.—The valuable effect a Progressive victory in Maine next month might have upon the November election in other states was pointed out by former President Roosevelt in this city and in Lewiston, where he opened the Progressive state campaign today.

"If Maine is true to her best traditions of the past, she should see that the Progressives triumph," he said in a short address here tonight. "We ask the rank and file of the old party to join us for we in reality are fighting their battles. We are striving to make them masters of their government and their constitution."

"If you feel fit to govern yourselves, come with us; for we are the real democracy."

Cubel Roosevelt left tonight for Boston, whence he will return to Oyster Bay in an automobile.

LEWISTON, Me., Aug. 18.—The Progressive party's campaign preceding the state election in September was opened today by Theodore Roosevelt in an address delivered at a meeting of Progressives from many sections of the state.

"We stand for prosperity," said the colonel, "and yet we stand for a proper distribution of prosperity for passing prosperity around."

"Of the two old machines, one by its action would destroy all prosperity and the other if prosperity were obtained, would divert it with enormous disproportion to a few favored and private people."

## CHINESE WITH BEARDS SMUGGLED INTO U. S.

**Get Home by Oct. 3  
G-in Admission on Pretext of Arrangements Made by Gov.  
Attending College, but  
Never Attend  
European Tourists**

SEATTLE, Wash., Aug. 18.—How 116 Chinese, many of whom were full bearded, have been brought into the United States in the last three years under the guise of students, only to disappear soon from schools, and 14 others were carried across the line from Vancouver in the tender of a freight engine, was developed by the federal industrial relations commission here in hearings which closed tonight.

Testimony showed that it was worth from \$500 to \$750 to bring a Chinese into this country. Ninety-six Chinese were brought here from their native land by Claude E. Stevens, a Seattle attorney. He placed them in Adelphi college, a local school, where extensive preparations were made for receiving them. It is declared that within a few months all of them had disappeared. Mr. Stevens testified that he received about \$3,000 in fees for placing the Chinese in schools but declared he knew nothing of what became of them after they left.

Mrs. Sarah E. King of Ellensburg, Wash., the wife of May J. King, who describes herself as an "organizer" for the Young Men's Christian association and the Young Women's Christian association, but admits that she never was appointed to such a position, told of bringing 20 "students" into this country. They were placed in the Cushing academy at Ashburnham, Mass.

## NAVAL BATTLE IN THE NORTH SEA REPORTED

LONDON, Aug. 18.—Wednesday.—A dispatch to the Central News from Harwich says that a naval engagement occurred early Tuesday morning in the North sea about 200 miles off Harwich. The statement of the correspondent is not confirmed by the official bureau.

LONDON, Aug. 18.—Wednesday.—The Amsterdam correspondent of the Post says a telegram has been received there from Texel island reporting heavy gun fire Tuesday morning in an eastern direction.

Texel island is in the North sea and is the southwesternmost of the Frisian islands forming part of the province of North Holland.

## PRES. WILSON SIGNS SHIP EMERGENCY BILL

WASHINGTON, Aug. 18.—President Wilson tonight signed the amendment to the Panama canal act under which foreign-built ships may be admitted to American registry for the over-seas trade. The measure becomes effective at once and is expected to aid materially in solving the problem of handling American exports while the European nations are at war.

The president also signed the bill to regulate dealings in cotton futures.

## CURTAIN DROPS ON WAR STAGE; WORLD KNOWS LITTLE OF REAL FIGHTING

*Vast Armies in Contact, but Results of

## 100,000 BRITISH TROOPS HAVE LANDED ON EUROPEAN FIELD

*Naval Engagement Reported in North Sea;  
French Claim Victories in Alsace, While  
Belgians Declare Liege Forts Are Still Hold-  
ing Out Against Germans*

LONDON, Aug. 19 (1:45 a. m. Wednesday).—As far as the cordon of secrecy which the battling nations have drawn around the Franco-German frontiers will permit of guess work, the great battle which promises to cast Mukden and Tsingyang into insignificance has not actually begun.

Encounters, which military historians a month from now may describe as "reconnaissances in forces," are proceeding all along the border. They are heralded by both sides as battles and victories. In history most of them will rank as incidents.

## WAR SITUATION SUMMARIZED

From the war zone come only brief reports of the activities of the vast German and allied armies opposing each other.

The French officially report that the Germans have abandoned Saarebourg. The Liege forts are still said to be intact and a Brussels dispatch says that the German movement toward the Belgian center seems to have been checked.

"The French troops are in contact with the Germans, but there is no important engagement to report," says an official announcement of the French embassy at London.

A British expeditionary force, numbering more than 100,000 has made a safe landing at French and Belgian ports and is doubtless well on its way to form a junction with its allies.

## NAVAL BATTLE IS REPORTED

A significant statement issued by the British official press bureau says that desultory fighting has occurred between the British patrolling squadrons and flotillas and German reconnoitering cruisers.

"A certain liveness is apparent in the southern part of the North sea," the statement adds.

There are rumors of a naval engagement about 100 miles off Harwich in the North sea.

In a stirring message to the troops, King George says:

"Duty is your watchword, and I know your duty will be nobly done."

## FRENCH CLAIM GREAT VICTORY

The French commander-in-chief, General Joffre, personally reports French progress in upper Alsace and declares that the French troops have occupied all the region in Lorraine, 32 miles inside the German frontier.

An American corps has been organized in Paris and several American aviators have offered the government their aeroplanes. There is some question (Continued on Page 3, Column 3.)

Liege remains the crown of the controversy. The German government has announced that the forts have been destroyed and the defenders buried beneath the ruins. The French government declares that the forts are still holding.

## GERMAN MOVEMENT TOWARD CENTER CHECKED

From Brussels comes word that the German movement toward the center has been checked, while from the French embassy in London the statement has been issued that the Germans have retired from the important Belgian outpost of Saarebourg.

An ironical vein of unauthorized intelligence from Belgium, which the war office frankly communicated to the papers last night, that the three allied armies had agreed upon, has been entered to the letter. The censorship of the British war office follows closely that enforced by the Japanese during their war against Russia, with the exception of one unique detail.

Field Marshal Kitchener communicated to the British press:

## PUTS BAN ON DETAILS OF MILITARY PLANS

"For your private information the details of the movement of what is officially termed the British expeditionary force will be given with the understanding that the government thinks it judicious that there should be:

Two actually uncertain factors remain to be weighed and determined, and until some real battle shall have given some light on them, there will be no settled frame of mind in this country.

These are: whether the French army is better than it was in 1870 and whether the Russian army is better than it was in the Japanese war.

## GREAT CONFIDENCE IN THE FRENCH ARMY

There is a great confidence in the French general staff and great respect for the enterprise which Frenchmen have developed in the last decade in sports, particularly in aviation, and keen respect for the bravery and hot-headed dash of the French blood.

Whether the solid endurance and enormous numbers of the Russian masses will enable them to hold their own against the traditionally superior brains of the German general staff is another important question.

So far as their own progress is concerned, the British feel deep satisfaction that the navy has proved sufficiently equal to its work up to date to make it possible to land the continent's large army without a naval battle has been fought, with the same precision and lack of casualties as if it had been maneuver instead of actual warfare, and to clear the Atlantic so that commerce can pursue its peaceful way and food and supplies can be brought from the Scandinavian countries over the North sea.

## SILAMLR IN DISKISS IN CHATHAM STRAITS

VICTORIA, B. C., Aug. 18.—A wireless message from Digby island says: "Picked up distress signals from Grand Trunk Pacific steamer Prince Albert at 9:30 p. m. Boat breaking up on Butterworth rock, in Brown passage, Chatham straits, in dense fog. Prince John and Lillicott advised and are rushing to assistance."

## LONDON LEADING LIFE OF SUPPRESSED EXCITEMENT

LONDON, Aug. 18.—London displayed little excitement when it became known that British troops were in France. There were no crowds around the bulletins and no rush for newspapers. There was stolid, repressed earnest crowds in the parks where the recruits are drilled, and at the barracks where the trained soldiers are encamped.

The general routine is little disturbed, except for the unusual movement through the streets of troops, ammunition trains and hospital corps. Tailors and saddlers are rushed with business. The high "words and bayonet" sharpened" appear in the cutlers' windows. No women or children weep at the troops depart.

**Playhouses Crowded.**  
The attendance at the music halls and theaters shows no diminution and many Americans spend their afternoon or evening at the playhouses. "Britannia Rules the Waves," the Marseillaise and the Russian national anthem are played by the orchestras, the audience standing.

As one Highlander regiment went through the streets, its band played "Marching Through Georgia."

Private homes have been converted into hospitals, and the newspaper departments, under the head of "What Women Can Do," or some similar caption, are the busiest.

Signs are posted that Earl Kitchener, the secretary for war, needs 100,000

#### What the Press Agents Say

"THE STIGMA"

Today at the Empress the two-reel Kae-De feature, "The Stigma," will be shown. Some of the most beautiful scenes in this production were taken in Alaska and are more than worth while. The story:

John Field, a young physician, is so absorbed in his work that he neglects his wife, Aubrey. She meets an actor, Philip Lane, who falls desperately in love with her. In her loneliness, she yields to his entreaties and reveals him secretly. One evening the doctor returns home unexpectedly and finds Lane in the house. He is so enraged that he turns both the actor and his wife out of doors, and later, shattered by his terrible experience, dispenses of his practice and goes to the Klondike.

Aubrey and Philip join a theatrical company, booked for Alaska. On a long tramp between towns, Philip is overcome by the cold. Aubrey, rushing to the nearest cabin for help, comes face to face with her husband. Dr. Field hurries back with her to Philip, but it is too late. The past is forgiven, and they are reconciled.

In addition to the above there is a Keystone comedy with Charles Chaplin, the funniest man in pictures; "Bill Saves the Day," No. 4 of the famous office boy series and "The Saving Flame," a majestic drama, intensely interesting. Thursday's offering at the Empress will be "In Search of the Castaways," in five reels, from the book of Jules Verne.

#### OPERA HOUSE

Today the management presents a strong program. "The Disaster in Shaft No. 19" is a most interesting portrayal of a coal mine disaster. It abounds in love, action and wonderful settings. "A Rural Romance" is featured by two popular photo-players and how their elopement failed abounds in interest. "A Redman's Heart" is a real drama of frontier life.

#### Societies and Clubs

There will be a meeting of the Colorado Springs Single Tax club tomorrow evening at 8 o'clock in room 700, Exchange National Bank building. The purpose of the meeting is to adopt by-laws of the league.

The East Side W. C. T. U. will give an open air meeting Friday night at 7 o'clock in North park just before the band concert. The Local Temperance league will take part.

The El Paso County Republican club will meet tonight at Trinity church, 315 East Castilla street. The Rev. J. W. Braxton, superintendent of the National Preachers home, will deliver an address as will Lou Duncan of this city.

The High School Girls Bible class will have an informal reception Friday evening, August 21, from 7:15 to 9:15 o'clock at the home of Miss Ethel Hall, 1507 North Weber street. Members and their friends invited.

Headache and Nervousness Cured—"Chamberlain's Tablets are entitled to all the praise I can give them," writes Mrs. Richard O. Spencer, N. Y. "They have cured me of headache and nervousness and restored me to my normal health." For sale by all dealers. Adv.

# AMERICANS KICK AT PRICES FOR STEAMERS

GENOA, Aug. 18.—Some of the Americans here are amazed at the exorbitant sums asked for the charter of ships to convey them home. Protests to the Italian authorities have brought forth the reply that they do not consider themselves responsible for the action of speculators in raising prices. The authorities also have pointed out that as a result of the war, half a million of Italians have been returned to the country in a state of destitution, and will require immediate relief.

# Can't Sure Corn Cure Ever Known

"Gets-It" the New Way, 2 Drops Do It.  
 To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new-plan corn-cure.

"GETS-IT" is the first one ever known to remove corns without pain, without pain and without trouble. While it is the biggest-selling corn cure in existence today, it is now used by millions because it does away with sick, tape, with plaster and cotton bands that shift their position and press down on the corn, with salves that "burn" the toe, with "charcoal" and "caustic" and cause pain and pain with knives, razors and files, clawing and pulling at a corn.  
 "GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitutes. Try it on any corn, wart, callus or bunion tonight.  
 "GETS-IT" is sold by druggists everywhere. 25c a bottle, or sent directly by E. Lawrence & Co., Chicago.

# PRES. WILSON APPEALS TO THE AMERICAN PEOPLE TO REMAIN NEUTRAL IN CRISIS

(Continued From Page One.)  
 Bryan had declined to talk about it. Colville Barclay, charge d'affaires of the British embassy, called immediately afterward and left with the secretary a copy of a note from the British government announcing that any action taken by Japan would be confined to German territory in eastern Asia. The note was similar to that announced by the British information bureau last night.  
 The British charge sought information about the possible cable censorship and was informed that the subject was still under consideration. Although the international lawyers and officials of the department of justice, who are investigating the situation, have no intimation of the trend of their findings, predictions in some official quarters were to the effect that the situation would probably be maintained, while the cables probably will be left in their present status.

# PRESIDENT'S PLEA FOR NEUTRALITY

(Continued From Page One.)  
 holding itself ready to play a part of impartial mediation and speak the counsel of peace and accommodation, not as a partisan, but as a friend.  
 Utters Word of Warning.  
 "I venture, therefore, my fellow countrymen, to speak a solemn word of warning to you against that deepest, most subtle, most essential breach of neutrality which may spring out of partisanship, out of passionately taking sides. The United States must be neutral in fact, as well as in name, during these days that are to try men's souls. We must be impartial in thought, as well as in action; must put a curb on our sentiment, as well as on every transaction; that might be misconstrued as a preference of one party to the struggle before another. My thought is of America. I am speaking, I feel sure, the earnest wish and purpose of every thoughtful American that this country of ours, which is, of course, the first in our thoughts and in our hearts, should show herself in this time of peculiar trial a nation fit beyond others to exhibit the fine poses of undisturbed judgment, the dignity of self-control, the efficiency of dispassionate action, a nation that neither lets in judgment on others nor is disturbed in her own counsel, and which keeps herself fit and free to do what is honest and disinterested and truly serviceable for the peace of the world."  
 Germany Will Not Yield.  
 There is no information thus far as to what Germany's course will be on the Japanese ultimatum. But the official view in the best posted official and diplomatic quarters is that Germany cannot and will not accede to the demand. In that event, it is believed the garrison will make a determined resistance with the prospect of the slaughter of the comparatively small force by the overwhelming odds which Japan can bring to bear. The German estimate of the force at Kiao-Chow is about 5,000 people, which includes the wives and children of the governor and numerous officials stationed there. Although these small numbers are, in the opinion of the Japanese, they are not to be despised. The Japanese are confident that they will be able to capture the city and hold it for some time.

# British Soldiers Are Urged to Prove Worthy of Mission in Campaign While on Continent

LONDON, Aug. 17.—The official war information bureau announces that the British expeditionary forces have landed safely on the French shore.  
 Every man of the British expeditionary force which has landed in France carried in his knapsack a little pamphlet signed by Earl Kitchener, containing 200 words of sound and sensible advice. The field marshal tells them to fear God and honor the king and their country, to remember that they will be fighting on the soil of a friendly nation, to abstain from liquor and looting and to be courteous to women and no more than courteous.  
 The official news bureau announces that General Sir Horace Smith-Dorrien has been appointed to command one of the army corps of expeditionary force in succession to Lieut. General Sir James Grierson, who died yesterday.  
 Message From King.  
 A stirring message from King George to the expeditionary force was read out to each regiment as it left its port of departure under sealed orders. It was as follows:  
 "You are leaving home to fight for the safety and honor of my empire. I shall follow you every movement with the deepest interest and shall mark with eager satisfaction your daily progress. Indeed, my thoughts will never be absent from my thoughts. I pray to God to bless and guard you and to bring you back victorious."  
 Kitchener's Advice to Men.  
 Field Marshal Earl Kitchener's soldierly homily to the men of the British expeditionary force which he directed every soldier should keep in his active service pay book, was textually as follows:  
 "You are ordered abroad as a soldier of the king to help our French comrades against the invasion of a common enemy.  
 "You have to perform a task which will need your courage, your energy and your patience.  
 "Remember that the honor of the British army depends on four individual conduct.  
 "It will be your duty, not only to set an example of discipline and perfect conduct under fire, but also to maintain the most friendly relations with those you are helping in this attack.  
 In Friendly Country.  
 The operations in which you will be engaged will for the most part take place in a friendly country and you can do your duty with the least possible trouble to the people of France and Belgium in the true character of the British soldier by being—

# DEALERS COMBINE TO BOOST PRICES

Government Agents Discover Evidence of Conspiracies. It Is Charged

WASHINGTON, Aug. 18.—Reports from officials and special agents investigating the rise in food prices continued to flood the department of justice today.  
 A special agent working in the middle west reported that he had found evidence that sugar producers and refiners had conspired to raise prices. Another announced that a state association of flour producers was issuing price bulletins, and that evidence gathered showed that the organization's prices are followed by the individuals.  
 The department was furnished by a wholesale firm with a circular letter issued by the Spauld Cotton company of New York, announcing a 20 per cent advance in prices on numerous lines of special cotton, effective August 15. A report from Kansas City, Mo., said that retail grocers had formed an association to control prices.  
 A charge that a large combination of drug stores had raised prices 100 per cent on various articles is being investigated.

NEW YORK, Aug. 18.—With the city planning to establish municipal groceries and meat markets, and the police in every borough obtaining comparisons between present and past food prices, it was announced at the district attorney's office late today that this promised inquiry into the higher cost of living here since the outbreak of war in Europe will be begun on Thursday morning.

SAN FRANCISCO, Cal., Aug. 18.—Robert Linnard, a millionaire beet sugar man, and A. A. Brown of the California-Hawaiian Refining company, were served today with subpoenas directing them to appear before the federal grand jury next Thursday, which is investigating the rise in food prices.

CLEVELAND, Aug. 18.—Preparations for the calling of a national boycott on eggs, beef and veal are under way, according to Frank S. Krause, president of the "Thirty-Cent Egg Club," today.

# ALL AMERICANS CAN GET HOME BY OCT. 3

(Continued From Page One.)  
 October 3. The Cunard company, the secretary said, would provide similar transportation by October 3, for more than 10,000 passengers.  
 "It is possible now to bring back all Americans in France and England and those who can get to these countries by October 3," Mr. Garrison said. "Our task is now to secure transportation for the refugees in the other countries to France and England or some neutral port."  
 "All of the embassies and legations in remaining countries will now work in this direction."

# Distributing Relief Fund

FALMOUTH, England, Aug. 18.—Henry R. Breckenridge, American assistant secretary of war, was met by the mayor of Falmouth on his return here tonight from London, where today he was engaged in working out plans for the relief of stranded Americans in Europe. Mr. Breckenridge thanked the mayor for the hospitality that Falmouth had extended American officials and assured him the American government would repay whatever expenses had been incurred in their behalf.

The United States cruiser North Carolina, this afternoon took on board \$200,000 from the cruiser Tennessee, which will sail tomorrow morning for Rotterdam with Mr. Breckenridge on board.  
 "I do not anticipate any danger from mines in the North sea," said Mr. Breckenridge, "although I cannot guarantee our ship will return safely."

Many Reach Genoa.  
 GENOA, Italy, via Paris, Aug. 18.—An increasing number of Americans desirous of returning to the United States continue to beset the American consulate here, seeking information as to ways and means.  
 The consul general expects that 5,000 more Americans will have embarked here for home by the end of August.

 tion as to whether this offer will be accepted because of possible international complications.  
 The former French minister of finance, Paul Doumer, who has returned from the front in Belgium, says three Zeppelins have been destroyed by gun fire and one wrecked by dropping into the forest.  
 In order to set at rest reports of casualties in the British army, the official bureau declares that there have been no casualties as yet.  
 A Rome dispatch gives a report from Vienna that the cruiser Zenta has been sunk.  
 Count Okuma, the Japanese premier, declares it is Japan's intention to eliminate from China the root of German influence.

# American Women Raise War Fund to Aid British Wounded

LONDON, Aug. 18.—At the first meeting of the American Women's War Relief society, held today at the residence of Mrs. William Leeds, \$400.00 was subscribed. The subscriptions ranged from \$25.00 to a few shillings. Among those present at the meeting were the Duchess Marlborough, who presided, Lady Churchill, Lady Paget, Mrs. John Astor, Mrs. Lewis Harcourt, the Duchess of Roxburghe, the Countess of Granard and the Countess of Essex.  
 It was decided that the society should equip a hospital and hospital ferry, which are to be managed by the British Red Cross.  
 Lady Paget, who has a son at the front, was overcome with emotion while moving a vote of thanks to the secretary, Chauncey M. Depew of New York and Dr. Bloodgood of Baltimore, who are advising the society.

# THE "HOLY GRAIL" REALLY CRACKED

From New Orleans Times-Picayune.  
 A letter from Rome says: "Both religious devotees and art lovers have learned with regret that the recent reports of the breaking of the 'Holy Grail' beyond repair at the cathedral of Genoa are true, although satisfactory explanations of the accident are still lacking. One expert who 'admitted' the breaking of the ancient basin to dampness in the cathedral is regularly suspected of shielding some person who accidentally broke the vessel."  
 While it is doubtful that this basin is really the sacred cup around which such legendary romance of knight-errand days was woven, it has been accepted as such by a large number of persons.  
 The vessel was brought to Genoa in 1104 by Guglielmo Embriaco, among the spoils of the conquest of Caesarea. Tradition then said, and has since been repeated, that from this chalice, captured from what appeared to be a Flavio Emerald, Christ drank at the last supper, and later in it Joseph of Arimathea preserved the blood from Christ's wounds at the crucifixion.  
 Napoleon Bonaparte, "the great chief" as they call him here, carried it off to Paris in 1805, and it was then tested and found to be glass. It had slight ornamentation and appeared to be finished with the tool as in gem engraving, while the color and texture were perfect. When reclaimed by Italy it was so badly packed that it was broken in the return and mended with gold filigree. Once before it left the cathedral, in 1319, when it was given as security by the town of Genoa for money needed for military defense. Eight years passed before it was returned.

# FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.  
 "Hair that loses its color and luster, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.  
 Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of 'Wyeth's Sage and Sulphur Hair Remedy,' which does the hair's natural work, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. ## GERMANS DONNED BELGIAN UNIFORMS TO SURPRISE ENEMY

LONDON, Aug. 18.—The following dispatch has been received by the Daily Chronicle from its Brussels correspondent:

"I learn that there was considerable military fighting along the northern lines on Sunday. To the southwest of Louvain I saw a stiff encounter. A thousand Prussian cavalry came up from the direction of St. Trond with apparently the intention of effecting a surprise. Their advance guard is alleged to have been dressed in uniforms taken from Belgian prisoners. This enabled the Germans to approach close to the Belgian lines without their identity being suspected."

"The Belgian soldiers in camp were picketing with the townspeople when the cry was heard 'The Germans are coming.' Almost immediately a terrific fire was opened on the outposts by the Germans. The dismounted Belgian cavalrymen were thrown into confusion, but rallied quickly and with drawn sabers charged the enemy with such ferocity that the Germans in front turned and fled."

"The main body of Germans behind were put on the defensive and the Belgians literally cut a path through the German mass. The German machine guns then came to their rescue, mowing down the valiant Belgians. It might have gone hard with the Belgians save for the timely arrival of a battery, which fired repeated charges of shrapnel, completely demoralizing the Germans. Several young women pikemakers witnessed all this fighting. They were very cool and not one of them was injured."

## DESTINATION OF GERMAN CRUISER IS UNKNOWN

SAN FRANCISCO, Aug. 18.—Ship whether the German cruiser Leipzig, which steamed out of the harbor early today after taking on coal and supplies, will resume its patrol of the coast, pending for marine prizes, or will proceed toward its nearest flag port, Asia, Samoa, whether its commission in these waters, the *Leipzig* Nürnberg, is believed to be heading.

During the 24-hour stay here, the *Leipzig* was permitted to replenish its bunkers with only 550 tons of coal, barely enough to take the vessel to Asia. Under the neutrality laws American ports are now closed to the cruiser for three months, and shipping companies inclined to believe that the *Leipzig* will not risk, by remaining off this port, the depletion of its coal supply.

Merchantmen of the belligerent nations, including 25 British bottoms, were tied up here and their sailing depends upon the German cruisers, quitting these waters.

The collector of the port, interpreting the neutrality laws yesterday, said that no prizes of war could be brought up here and their sailing depends upon the German cruisers, quitting these waters.

Meantime the Japanese cruiser *Idzumi*, which left San Diego late yesterday, is steaming up the coast, with the reported avowed intention of tagging the *Leipzig* about wherever it goes.

The French cruiser *Montcalm*, a more formidable craft than the German cruiser, is believed to be standing off this port.

## CZAR SENDS APPEAL TO SUBJECTS FROM OLD MOSCOW PALACE

LONDON, Aug. 18.—(Wednesday)—Reuter's Moscow correspondent telegraphs Tuesday, says:

"To the Hall of St. George in the great palace of the Kremlin today, Emperor Nicholas and the Empress Alexandra fulfilled the ancient ceremony on the eve of war. They received deputations of the nobility and the Zemstvo and merchants who presented loyal addresses. Those present at the ceremony included the British and French ambassadors and all the cabinet ministers, headed by Premier Kshutsky."

Emperor Nicholas replying to the addresses said:

"At this stormy, warlike hour, which suddenly and against my wishes has fallen upon my people, I now, according to the custom of my ancestors, to strengthen the forces of my soul in the sanctuaries of Moscow. Within the walls of the old Kremlin, I greet you, the inhabitants of Moscow, my beloved ancient capital."

"All my people everywhere in the village of their birth and in the city of their birth, in the duma and in the council of empire, have unflinchingly relied on my appeal and risen with vigor throughout the country, forgetting all private differences, to defend the land of their birth and the Slav race. In a powerful common impulse, all nationalities and all tribes of our vast empire have united."

"Russia, like myself, will never forget these historic days. This union of thought and sentiment in all my people affords me deep consolation and calm assurance for the future. From here, from the heart of the Russian land, I send warm greetings to my gallant troops and to our brave allies who are making common cause with us to safeguard the downtrodden principles of peace and truth. May God be with us."

## AUSTRIAN CRUISER SUNK IN ADRIATIC

LONDON, Aug. 18.—(Wednesday)—An official message received in Rome from Vienna says the Austrian cruiser *Zenta* was sunk in a naval battle off Antivari last Sunday. According to a dispatch to the Exchange Telegraph—

The cruiser *Zenta* which was built at Pola in 1897 was 303 feet in length and displaced 2,264 tons.

## European War Bulletins

PAPIS, Aug. 18. Georges Desmayer and Roussel Dorcières, two of the most celebrated swordsmen in France, have enlisted to work machine guns aboard aircraft. They are now training for their duties at the aviation station in Versailles.

LONDON, Aug. 18.—(Wednesday)—The dispatch from Brussels, the Exchange Telegraph's correspondent says: "The German movement toward the Belgian coast, which has been checked at Landen and Omblioux. No further movements of enemy troops have been observed. The German prisoners in Belgium will be sent to England."

LONDON, Aug. 18.—A Reuter dispatch from Brussels says the Germans made another attempt to cross the Meuse today by a bridge, not far from Dinant, where cannonading was resumed. The French artillery repelled the attack with considerable loss.

LONDON, Aug. 18.—(Wednesday)—The British official press bureau announces that some desultory fighting occurred Tuesday between the British patrolling squadrons and flotillas and German cruisers, which were reconnoitering. No losses are reported or claimed.

LONDON, Aug. 18.—An official dispatch to the French embassy says: "The Germans have abandoned Marchenbourg, where they were strongly established with heavy artillery."

LONDON, Aug. 18.—An official statement issued by the French embassy in London tonight says: "The Liege forts are still holding out. Not one of them has been taken."

LONDON, Aug. 18.—The French troops are in contact with the Germans in Belgium, but there is no important engagement of report, reads an official announcement issued at the French embassy in London tonight.

ROTTERDAM, Aug. 18.—(Wednesday)—It is asserted here that the forts at Liege were demolished by the Belgians after they had been evacuated, the action of the Belgians being due to the arrival of German heavy motor batteries.

LONDON, Aug. 18.—(Wednesday). The Belgian minister, according to a Brussels dispatch to the Daily Mail, announces that the report of the fall of the Liege forts "appears to be false, as nothing has been heard of it by the ministry."

LONDON, Aug. 18.—(Wednesday). A Brussels dispatch to the Mail says it is learned on the highest authority that on Monday the Liege forts were still holding out. They were cut off from the Franco-Belgian field forces and surrounded by Germans but continued their heroic resistance.

LONDON, Aug. 18.—(Wednesday). A dispatch to the Times from Constantinople, dated August 16, says: "The former German cruisers Goeben and Breslau arrived in port this morning and received their Ottoman officers and crews."

## LIEGE ATTACK MADE UNDER DIFFICULTIES FOR GERMAN FORCES

Mobilization Just Finished  
and Future Campaign  
Will Be Different

BERLIN, via Copenhagen and London, Aug. 18.—A series of statements in the Liege enigmas is published from the headquarters of General Stein, according to which French officers and perhaps also English officers were sent to Liege before the war to instruct the Belgian troops in the defense of the fortifications.

"It was impossible to protest against this," said General Stein, "but after the war began this conduct had to be regarded as a betrayal of Belgium neutrality by France. We had to act with all speed and mobility. Regiments were sent to the frontier and marched on Liege. Six weak brigades, on a rainy morning, with some cavalry and artillery, took Liege."

The brigades were mobilized at Liege and their reserves at first reinforced, then their own reserves. Two other regiments came later.

Mobilization Just Finished.  
Our mobilization has just finished. Our enemies thought that 100,000 men were at Liege, and, owing to difficulties with the commissaries, we were unable to advance. This, however, was a mistake. There was another reason for the pause.

Now the forward march can begin and our enemies will have an opportunity to convince themselves that the German force is well supplied with food and arms. The emperor has given the word not to sacrifice another drop of blood in capturing the Liege forts.

## Austrian Troops Mutiny; Oppose the Present War

LONDON, Aug. 18.—(Wednesday)—It is officially stated in Paris that the mobilization of the Austrian army was accompanied by much disorder and even open mutiny in many places, owing to the unpopularity of the war among many classes of people. This information is conveyed in a Paris dispatch to the Daily Telegraph.

The official statement adds that a large number of Czech soldiers have been shot at Prague for refusing to fight and that during the night of August 8, a whole Serb regiment of the fifteenth Austrian army corps mutinied. A similar mutiny occurred in Bohemia.

## CONDITION OF POPE IS NOT ALARMING

Nursed by Sisters and a Niece;  
Expects to Be Up in  
a Week

ROME, Aug. 18.—Pope Pius is not in so serious condition as has been reported, according to the attending physician. The pontiff's sisters and niece have been allowed to nurse him, as in the case of the previous illness, as that relieves him and distracts his attention from the gravity of the European war, because of which he has suffered great depression.

Dr. Marchisava said today: "There is nothing alarming in the condition of the pope. His present indisposition would pass unnoticed except for the high office which he holds and his extreme age. His present indisposition is much less grave than past illnesses."

The pope is suffering from a simple cold, which in his case, invariably produces hoarseness, accompanied by a slight bronchial catarrh. The cough and rise in temperature have caused some weakness. If no complications occur, and there is no reason to fear this, a week's rest will be sufficient to restore the pontiff to health."

The pope had rather a restless night, owing to the cough and difficulty in breathing, which awakened him frequently. His weakness was counteracted with frequent nourishment, which he was able to retain. Today, his temperature was normal and he was able to sit for a time in an arm chair, near a window. He expressed a desire to resume his audiences Friday, but it is not likely the doctors will sanction this plan.

## HISTORY OF SARDIS

From the Christian Herald.  
Of the seven cities of Asia, perhaps Sardis has the most interesting and romantic history, and yet, with all its natural advantages, its wealth, its famous rulers, its wise counselors, its victorious armies, it was the greatest failure of them all. The richest man in the world, Croesus, was king of Sardis, the wisest man, Solon, was his guest, and yet, through overconfidence and lack of watchfulness, time and again it was surprised, conquered and all but destroyed, until at last the disintegrating rock and soil from its own pedestal, loosened by the winter rains, buried down by successive earthquakes, buried the city 30 feet deep from the sight of man. It became a dead city, and it was buried by the forces of nature.

When thirst arose, there were the juices of fruits and palm wine. The spontaneous products of the garden even supplied the first demand for clothes. ## SEARCHLIGHT RIVALS THE SUN

From the Electrical World

A new type of search lamp which at a distance of five miles will produce about five times as intense illumination as the ordinary types will is being experimented with by the United States navy. Heretofore in the attempt to produce more powerful search lamps large reflectors have been used and large currents have been made to flow through the arc between relatively small carbons. The latest method of developing an intense light has until now been limited by the fact that the carbon volatilizes at extremely high temperatures and is therefore consumed very rapidly. In the new search lamp the dimensions are kept small without causing the carbons to deteriorate rapidly, by rotating them in

**Mayground Events**  
Closely Contested

With the interplayground championship to be decided within the next few days the different events scheduled on the sport program are closely contested by the children. Monument Valley park slipped into first place yesterday, defeating the Dorchester delegation in baseball and tennis. The ball game had some thrilling moments and the final score was 15 to 10. Dorchester park took the relay race thereby winning 10 points.

The race for the championship will close Thursday when the all-around championship and the individual championships will be announced. This afternoon Dorchester park will have a track meet. A ball game will be held at Monument Valley park and Boulder will meet Prospect in a ball game at Prospect lake. The standing of the playgrounds is as follows: Monument Valley park, 65; Boulder, 40; Prospect lake, 30; Dorchester park, 10.

**Chamber of Commerce**  
**Favoring Demo**

It was estimated that more than 800 balloons in the referendum vote on the Chamber of Commerce mask ball, to be held August 27, had been cast when the polls closed at 8 o'clock last night in the Chamber of Commerce. Balloons mailed before 6 p. m. yesterday will be accepted by the committee, and it is expected that the total number of votes cast will reach the 500 mark when the final returns come in this morning. The balloons will be counted by the committee of five judges. All unsigned envelopes containing ballots or otherwise infringing the rules, will be thrown out.

Work on the preliminary construction of the grandstand for the ball will be started this morning in the mill, provided that the majority vote is in favor of the dance. It is planned to seat 5,000 people in the stand. One hundred boxes, with six seats to a box, will be built. Six box seats will be \$1.00, and grandstand seats at 50 cents. As much of the work as possible will be finished in the mill, according to J. W. Atkinson, chairman of the committee. In order that the street may be kept clear for traffic up to the last moment, the grandstand will be decorated with banners, pennants and colored lights.

One of the features of the parade, to take place in the afternoon of carnival day will be the Midland band, with its members garbed as Indian chiefs. The automobiles in the parade will be decorated.

**Midland Band Concert**

Two Midland band concerts will be given today, this afternoon in South park, and this evening in Soda Springs park. The afternoon concert, starting at 2 o'clock, will be given by the Midland band. The evening concert, starting at 8 o'clock, will be given by the Midland band. The complete program:

**European Trip at Present**

The independent, F. W. Cole of the Colorado Springs schools has received the following letter from Gertrude A. Willey, a high school teacher who was abroad at the beginning of the European war, and who returned on the White Star liner Celtic.

Abroad, S. S. Celtic, Aug. 14.

Dear Mr. Cole:

If no dire calamities befall this boat there is nothing left but a warship. I shall reach American soil in time to gladden at Colorado Springs for the opening of school. Another outburst upon the war!

I am alive and have my trunk and am sailing toward the good U. S. A. For all of this I give thanks. If the American tourists could get hold of the Kaiser he would get his deserts for spoiling their summer. My one regret is that I missed seeing Ireland. We were to spend one week there and our last week in London. We were in northern Wales with but money enough to get to Liverpool. We were fortunate to get passage on this boat, for we left many a school teacher bottled up in Switzerland and many a millionaire stranded in London. We are now traveling with many baggageless, moneyless fellow countrymen. Five bank holidays in succession may have been the salvation of England and English business, but they were surely the consolation of thousands of American tourists.

I most surely advise one not to go to Europe till universal peace is in good working order again. I think I could have had a position for the winter with the Red Cross society. But I must prefer school teaching in Colorado Springs. Very sincerely,

GERTRUDE A. WILLEY.

**Free From Hairs**

(Beauty Topics)  
If you are willing to spend a few minutes' time in your room using a delicate paste, you can easily banish any ugly, hairy growth without discomfort or injury. The paste is made by mixing some water with a little powdered-deleatone. This is then spread over the hairy surface and after about 2 minutes rubbed off and the skin washed. You will not be disappointed with this treatment, providing you get real deleatone.

**SCHOFIELD'S CONDITION**  
**SHOWS LITTLE CHANGE**

**Colorado Springs Man Terribly Burned**  
**In Saving Others From Death**  
**In Mine Fire**

The condition of Walter D. Schofield, son of Dr. and Mrs. J. V. Schofield of this city, who was seriously injured in a mine disaster at Aspen, August 8, and narrowly escaped being burned to death in an attempt to rescue four companions, is unchanged and his recovery is doubtful. He is at the Glicker sanatorium and has been delirious with pain since the accident, according to word received from his father last night.

Schofield was in the employ of the Fraggler Mining company as assistant superintendent and was injured in fighting a sulphide fire in one of the company's mines. He was on the eighth level, with four companions, about 250 feet from the surface in a shaft when the combination of fire and water caused a caving and steam explosion. The building, which was driven out along the passageway toward the exit and the five men died in terror before it. The heat was so intense that the electric light wires melted and the mine was plunged into darkness.

Fighting for their lives before the cloud of scalding steam burst of the mine became wedged against a small opening in a bulkhead. Schofield, bringing up the rear, saw their predicament and stopped. He went back for several yards along the passageway and then hurled himself at them, heading, forcing the men through the opening and breaking down the bulkhead. For several minutes the men ran through the blinding steam and darkness and finally emerged into the open, half dead with their burns and the shock.

Schofield was the most seriously injured and his recovery is doubtful. His condition is unchanged and according to his father last night, he has been delirious with pain since the accident. It is terribly burned about the body and it is probable that it is quite likely he can undergo the operation.

"Sulphide fire flies are common occurrences in mines," said Dr. Schofield last night, "and some of them have been smoldering for 20 and 30 years behind bulkheads that have been built to head them off. That is one of the things that my son has to guard against and he was only doing his duty in fighting the fire at Aspen."

Walter Schofield graduated from Colorado college in 1910 with the degree of mining engineer, and has been in the employ of the Fraggler company for a year and a half.

**in Motorcycle Race**

Driving his machine at an average speed of 61.28 miles an hour, Alva W. Stratton, a Colorado Springs boy, took first place from 12 competitors in a 100-mile motorcycle race held recently at Rockford, Ill. Stratton has been with the Harley-Davidson motorcycle company in Milwaukee for some time as a demonstrator, and he rode one of their machines in the race at Rockford. He made the entire race without a stop, an unusual record, and averaged the 100 miles in 97 minutes, two seconds.

Stratton is the son of Mr. and Mrs. Frank E. Stratton of 1822 North Tejon street. He was born and grew up in Colorado Springs, and is well known here. One of his brothers, Herbert Stratton, is now in the United States navy, and is on the cruiser Dealey on his way to South America.

**Last Monday Afternoon**

Edward Cawley, 18 years old, who sustained a concussion of the brain Monday in a motorcycle accident in Rustic Glen, Manitou, is still in a critical condition. He was rushed to St. Francis hospital after the accident, but had not regained consciousness at a late hour last night, and it was said at the hospital then that his condition was serious. It was regarded as doubtful whether or not he would live through the night.

Cawley is a visitor in the Pikes Peak region from Minneapolis, Kan. He, his mother, Mrs. H. E. Cawley, his sister and grandmother, have been staying at a cottage in Manitou during the summer. When the accident occurred Monday, Cawley had just left the cottage to go to Manitou. He was riding at a rate of about 30 miles an hour, when the brake on his motorcycle broke. This threw the motorcycle into the curb and Cawley was thrown from the machine and the broke.

**Sociability Tourists**  
**Running on Schedule**

Special to The Gazette.  
GLENWOOD SPRINGS, AUGUST 18.—The Pikes Peak Ocean-to-Ocean highway sociability tour reached here tonight on schedule time, after a splendid day's run from Leadville. The party left Leadville early in the morning and skinned across the continental divide over Tennessee pass on a 14 per cent grade. The scenery was wonderful and the roads in fine condition. After a thrilling ride over Battle Mountain, the automobiles sped down a facile river valley and down an arid cañon for lunch. A ride through Glenwood cañon completed a day full of scenic grandeur and powerful roads. The people en route came out to welcome the party and showed great enthusiasm over the tour. The Strauf, for car, from Salt Lake City, met the party at Glenwood Springs, and will accompany the visitors for the rest of the trip. Tomorrow will be a day of rest for the party, and Thursday the tour will leave for Meeker.

**MRS. ELEANOR HOOK DIES**

Mrs. Eleanor H. Hook, widow of the late William E. Hook and mother-in-law of E. M. De la Vergne of Colorado Springs, died yesterday at her home, 130 East First street, at 10:04 a. m. after a short illness. She was 70 years old. She is survived by three daughters, Mrs. Alice M. De la Vergne, Miss Smith of Colorado Springs, and a daughter living in England. Mrs. Hook was one of the pioneer residents in Colorado Springs and had lived here for many years. Funeral arrangements will be announced later by the D. E. Laid Undertaking company.

**News of the Courts**

M. G. Lonsley, accused of stealing a newspaper from the Zimmerman publishing company, was arrested Monday night by the police, and was turned over to the county authorities yesterday. He waived preliminary examination and was committed to jail to await further investigation by the district attorney's office, without steps being taken to bind him over for trial in the district court. He will have another hearing before Justice Dunnington, probably this morning.

In the case of Earl Carpenter vs. Nathan F. Ambrose, which was taken under advisement by Justice Dunnington after a trial last Thursday afternoon, Justice Dunnington has given judgment for the plaintiff. Carpenter sued Ambrose for \$85 claimed to be due for the location of 320 acres of government land in Lincoln county, which Ambrose has filed on. Ambrose will appeal the case to the county court.

Police Magistrate Manning yesterday fined H. A. Rollinson \$5 and costs on a charge of violating the automobile light ordinance, but suspended both the fine and the costs. He dismissed the case against Clarence P. Brakke, arrested for violating the solicitors' ordinance, because of lack of direct evidence against Brakke.

Justice Dunnington yesterday sentenced Roscoe Conkling McArthur, colored, to 30 days in the county jail on a charge of carrying concealed weapons. McArthur was arrested Monday night at the Santa Fe railroad yards by a Santa Fe officer. When he was searched it was found that he was carrying a razor.

The case against John Blundy, charged with impersonating a United States officer, which was to have been tried before Justice Madden yesterday, has been continued to 10 o'clock this morning, because of the absence of two witnesses from the city.

George Wiley was arraigned before Justice Madden yesterday on a charge of larceny from the person. He waived preliminary examination and was bound over in the sum of \$1,000 for trial in the district court. He failed to furnish bond and was committed to jail. Wiley was arrested by the police and turned over to the county authorities. He is accused of stealing a watch from Arthur Walsh.

Mrs. Winifred Kelly, charged with assaulting H. A. Surr, pleaded guilty in Justice Dunnington's court yesterday. Justice Dunnington fined her \$1 and costs, but suspended both the fine and the costs.

**WORRYING WILSON**

WASHINGTON, Aug. 18.—President Wilson expects within the next 24 hours to find an important plan for dealing with the question of censoring wireless and cable messages out of the United States to the nations involved in the European war. He consulted today with department of justice officials and with international law experts on the subject.

The president told callers today that the chief difficulty is that cables can deliver messages only on this side or

the other side of the ocean while the chief sphere of the wireless is in mid-Atlantic. Replying to a suggestion that it would be easy for Great Britain to transmit messages from the United States to Canada and then send them across the Atlantic, the president said that the practical difficulties of censorship in Canada were almost insurmountable.

## HEAVY YIELD OF WHEAT IN COLO.

DENVER, Aug. 18.—Considerable wheat has been threshed in Colorado so far this summer, and the indications show an unusually heavy yield according to the weekly bulletin of the department of agriculture issued today. The weather was practically dry the past week notwithstanding scattered showers.

In the western section of the state late potatoes are suffering from blight. In general, however, all crops have made satisfactory progress. Alberta peaches are being picked in Grand Valley and some cantaloupes are being shipped. Fall has caused some damage to fruit in some localities in Delta county.

## ROOT SCORES RULE BY THE DEMOCRATS

Says There Has Been No Reduction in the Cost of Living

SARATOGA, N. Y., Aug. 18.—Addressing the New York Republican state convention, which met here today under the novel condition of being without power to nominate candidates for office, since the primary law calls for their selection by the voters of the party at the primary election, on September 23, United States Senator Elihu Root, the temporary chairman of the convention, pointed out the most essential factors which might lead to Republican success this fall.

It is, as he noted, the first time in 18 years that the Republican party of the state comes to the election of its representatives as the party of opposition, both in the state and nation. The party is about to appeal, he said, to the voters of the state not only for a judgment on the conduct of the government by the Democratic party at Albany, but also in Washington.

He charged that since the Democratic party took possession of the national government a year and a half ago, with a program by which they proposed to set free every American from the incubus of too great success by others, to reduce the cost of living, and to give new life and prosperity to American production and commerce, it had failed.

No Reduction in Cost of Living.

He took up particularly the experiment with the tariff, which he asserted had been carried out in a spirit of hostility to American industry, and suggested that, "perhaps the time has now come when the American people are ready again to try the protective system upon its merits and call for legislation inspired by a spirit of friendliness toward American industry." He believed no one could claim any reduction in the general cost of living as a result of the tariff for revenue only.

He likewise attacked the Democratic program in relation to the financial system and the control of trusts and corporations. He remarked that eight months had passed since the banking and currency act became law, and that the delay in putting this into operation, together with the proposed legislation against trusts and corporations, had had an ill effect on the country. "The spirit of the dominant party," he said, in dealing with these business problems, impressed the enterprise of the country "with a sense that the government is hostile."

"Enterprise halts," he continued, "because it distrusts and fears the Democratic party. In the meantime, while private enterprise is retarded, government control grows. It has been discovered that by graduating the income tax and fixing high exemption, practically the entire tax may be drawn from great industrial communities of New England, the middle states and the central west, while the disposition of the money raised by taxation may be determined by representatives of other parts of the country which have paid none of the tax so that one set of Americans is to pay the money and another set of Americans is to spend it." He pointed to the \$25,000,000 voted to build railroads in Alaska and the \$25,000,000 voted by the house for good roads as "the prelude of schemes running up into the billions" for spending the money taken from rich states by taxation.

No Fear of Progressives.

His estimate of the Progressive movement he reflected as follows: "In this controversy with the Democratic party the Republican party stands alone. The threat of a third party which alarmed so many Republicans two years ago and still rears its one year ago has practically disappeared. It is now plain that it never had any real substance apart from the powerful personality of Mr. Roosevelt." At the coming state primaries, the Republican voters are to select candidates for 24 offices to be filled by the

## Men Pay Homage to Mother's Friend

"I am not surprised to observe the number of men who come into the store to purchase 'Mother's Friend,'" remarked a leading druggist. "It is a happy thought to send a lady to the drug store to buy 'Mother's Friend' is applied externally over the abdominal muscles, and is a gentle, soothing lubricant, penetrates to the network of nerves beneath the skin and has a marked tendency to relieve the muscular strain to which these broad, flat abdominal muscles are subjected. The cords, tendons and ligaments are thus permitted to stretch without the corresponding surface strain so often involved during the period of expectation. This in part accounts for the entire absence, in many cases reported, of nausea, morning sickness and other distresses, such as laceration of the epidermis so often the case when this gentle form of massage is neglected."

"Mother's Friend" has been highly recommended by a host of women who know from experience and by men who know from observation. Write Bradford G. and we will send you a valuable little book to expectant mothers.

voters of the entire state.

United States senator, Judge of the court of appeals, governor, lieutenant governor, secretary of state, comptroller, attorney general, state treasurer, state engineer, and 18 delegates at large to the constitutional convention.

Under the conditions of the new primaries, Senator Root saw many pitfalls. He saw defects in the primary law but urged on the Republicans that it was their obvious duty to accept it for the present in good faith. The duties of the convention, he said, were to adopt a platform on which the Republican candidates chosen at the primaries might stand, to approve the proposal of the national committee of the party to make representation in the national convention conform more closely to the Republican vote in the several states; and to represent the Republican voters of the state in consulting about the policy to be followed by the party in selecting candidates so that the voters might act effectively at the primary election "with a common purpose to secure party success at the regular election."

Danger of Splitting Strength.

He forewarned an unfortunate result if in each place the Republicans were to vote at the primary, "as they naturally might for residents of their own vicinity, or if the voters of one large place were to vote in that way, while the Republicans of all the rest of the state divided among a great number of candidates."

"Our opponents will have no such trouble," he continued. "More than one-half of the normal Democratic vote of the state is cast in the city of New York and the great mass of those voters, following the lead of their local party organization will distribute the nominations as that organization directs. The voters in the Republican primary, scattered through 62 counties, unorganized, will follow nobody's direction, but will act each according to his own judgment, and it will be necessary that they themselves shall consider what will be the effect of their action in regard to the distribution of candidates."

For the chief officers, for which men widely known would be candidates, he saw less trouble over this geographical cohesion but he believed it would be impossible for the voters to make up a list of 18 delegates at large to the constitutional convention properly distributed throughout the state without some previous understanding. He looked upon it as a duty of the convention to remedy this situation in part by drawing up recommendations leaving the voters to accept as much or as little as they chose.

## GERMAN BLEAMED FOR WAR

From the Chicago Tribune.

The ambition of the German war party to take possession of the colonies of France is responsible for the war involving most nations of Europe, according to A. Martin de Meuse, an instructor in the University of Chicago faculty and a former French soldier. Mr. de Meuse, who was formerly an instructor at West Point, holds that the peasants of the German lands are being involved unwillingly in a war on France and Belgium because their martial leaders have decided to strike these nations to obtain their choice colonial possessions.

"Germany is a pacific nation," he said. "The people of the country are inclined for peace. The Germans as a whole are as peaceful as the French."

Seek World-Wide Domination.

"There is a war party in Germany which desires domination—universal domination. This party wants to dominate Europe first and then all foreign affairs."

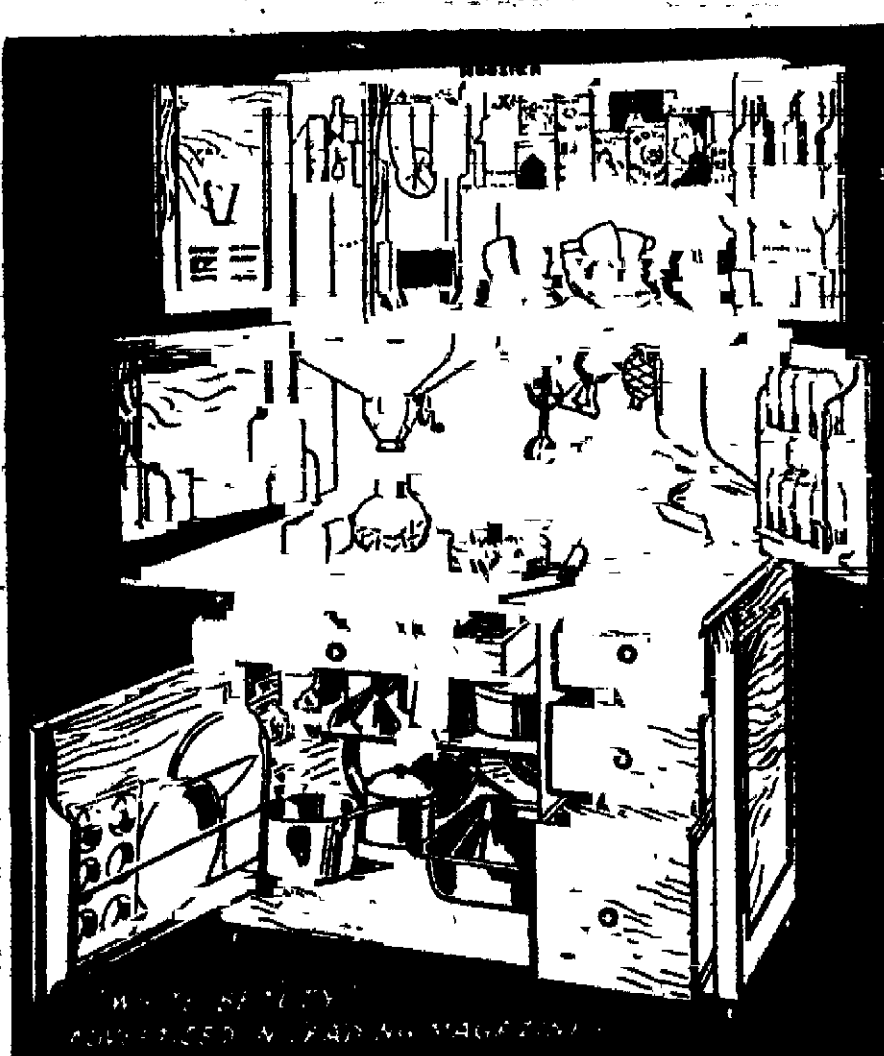

"The desire for France or the French colonies is in keeping with this idea. The war party in Germany is using the whole of the army to force domination. Belgium is being attacked to obtain the Belgian Congo."

The farmers and small tradesmen of Germany do not want to leave their homes to fight. But a sweeping wave of sentiment has been created by the activities of the war party and the peaceful peasants have been carried away on the wave."

Prof. de Meuse is a citizen of France. He recently came to the

Predicts War With Swiss.

Prof. Albert Schmitz of Smith college who is giving a summer course at the University of Chicago predicted that Germany soon would be involved in a war with the Swiss. He accounts of violation of neutrality on the Swiss frontier are true. The professor, who is a native of Switzerland, said the Swiss are exasperated because of aggressive tactics by the Germans in building fortifications to command the frontier and exacting concessions in the renewal of a 25-year charter for the Italo-Swiss German international railroad line.

Will Make No Alliances.

If reports are true that Germans have occupied the city of Hasle, or even forcibly have taken the rail station, the Swiss will have to fight. Prof. Schmitz said that the Swiss could make no alliance in their war with Germany. He declared the Swiss army is much more able to make a de-

termined stand against German aggression than the Belgians. The Swiss have never made a formal alliance with another country, said Mr. Schmitz, and they will not do so now. But they will throw out the Germans.

## Shift in Colonial Possessions Will Follow in Wake of War

Rearrangements of Boundaries Will Be Made When Peace Is Restored Abroad

From the New York Herald.

When the war clouds of Europe are dispelled and the last shot in the conflict now raging has been fired, the rearrangement of boundaries and frontiers will not be confined to the continent of Europe. With the exception of Austria-Hungary and the Russian empire, all of the principal nations involved in the great struggle have colonial possessions, protectorates and dependencies which are scattered all over both hemispheres.

The redistribution of many of these possessions consequent upon the success of the arms of either the triple alliance powers or those of the triple entente will entail great changes in the map of the world. The most radical changes will probably be made in Africa, whose map presents a remarkable picture of the juxtaposition of protectorates and colonies belonging to Great Britain, France, Italy, Belgium and Germany.

Great Britain's colonies and protectorates encircle the globe. France has possessions in Africa, India, China, North America, the West Indies, the South Atlantic, the Pacific and the Indian oceans. Germany has colonies in Africa, China and the Pacific ocean.

While several of the foreign holdings of the powers engaged in war are with out adequate military strength few of the principal possessions of Great Britain and France are unprotected.

In Africa British interests are paramount in Egypt by agreement with France at the beginning of the century. France has a protectorate over Morocco and is agreed with Spain and Mar Agre-

rian possessions facing the Mediterranean are bounded on the east by Tripoli, an Italian dependency. On the Red sea and contiguous to Egypt is the Italian dependency of British Somaliland. Italian Somaliland, British East Africa, German East Africa, Portuguese East Africa and the eastern portion of British South Africa.

The entire southern part of the African continent comprises the British South African union, which embraces Rhodesia, the Transvaal, the Orange River Colony, Natal and Cape Colony. On the west coast from British South Africa there are German Southwest Africa, Portuguese West Africa, the Belgian Congo, State French Congo, German Kamerun, the Niger territories, British protectorate, French Africa, German Togoland, British Gold Coast and the Ivory Coast, a French possession.

It is in Africa that the most radical boundary changes are likely to be made after the war.

Concerning the armed strength of the colonial possessions of Great Britain in the Union of South Africa there are about 10,000 regular troops and 75,000 auxiliary troops including the burghers of the Transvaal and the Orange River Colony. In the empire of India there are about 30,000 English and 1,000 native troops. The commonwealth of Australia has a military force of 175,000 men.

The French army in northern Africa is about 15,000 strong, of which force 12,000 are natives. In Algeria she has about 25,000 men, and 17,500 in Tunisia.

**CLAIRVOYANTS**  
**PROF. GARLAND**  
113 1/2 E. PINE PEAK AVE.  
THE GREATEST CLAIRVOYANT, PSYCHIC, PALMIST AND YOGI  
MEDIATOR IN AMERICA.  
ARE YOU IN TROUBLE?  
DOWNHEARTED, DISCONTENTED, DISAPPOINTED, WORRIED AND DISCOURAGED? IF SO, CONSULT  
PROF. WM. E. GARLAND  
The only original, is known from one state to the other.  
LEARN WHAT THE FUTURE HOLDS FOR YOU. The coming event which may ruin your life can be averted. A word of warning may prevent a disaster. His clear spiritual insight can discern the reasons for your failures and show you how to succeed.  
HAS YOUR LIFE BEEN SHADOWED BY SOME INFLUENCE FOR YEARS? Does every undertaking end in disaster? Do you often wonder why others succeed while you fail? While you fail, although you strive so earnestly? PROF. GARLAND can implant in your life the germ of success, that unseen yet mighty factor that turns gloom into sunshine and a hopeless struggle into a glorious triumph.  
Have you been separated from the one you love and are you spending your days in the vain effort to forget? GARLAND through the marvelous, inexplicable power of his command.  
21 YEARS IN COLORADO SPRINGS.  
THE TRUTH OR NOTHING.  
FREE CONSULTATION.  
PROF. WM. E. GARLAND tells that life is a mystery, a vast, complicated, profound mystery. Behind us is the irrevocable past, fast fading away, like a word broken up into shreds of time. Before us lies the unknown and unexpected future—a future so pregnant with doubt and perplexities—a future along whose pathways are hidden pitfalls, concealed quicksands and rugged reefs beneath treacherous waves. Misfortune seems to be the common heritage of man. There is no class or sect that can claim exception or immunity from these disasters—they are incidental or accidental to all.  
THE MAN OF THE CENTURY.  
PROF. WM. E. GARLAND.  
Without the least iota of egotism, the claim made by GARLAND, "THE MAN OF THE CENTURY," stands on a pinnacle alone, above all others. In comparison as lofty as the Pyramid of Cheops stands above the sands of the Libyan desert.  
CONSULTATIONS.  
If one engages to do certain things and tells you that if he does not do these things he will make no charge for his services, is he not making a fair and honest proposition, one to which no one can take exception?  
FOR THE NEXT SEVEN DAYS, LOW FEE.  
I call your name, tell you age, your occupation, tell what condition your business is in and how to promote it; tell you all about your wife, husband, sweetheart or lover and how to win the love of any one you desire. I tell you of any move, journey, speculation, position or change of any kind which may be made before you know it and to get to obtain best results. I tell you exactly what your acquaintances think of you, who to trust and who to shun. I tell you whom and when to marry, if at all, and give their name, age, occupation and disposition. In short, I tell you everything you called to find out, and that, too, without asking you a question or you speaking a word.  
ARE YOU UNHAPPY?  
If you are in any kind of trouble, call and see this wonderful man; he guarantees to help you.  
IF YOU WISH HAPPINESS, CONSULT PROF. WM. E. GARLAND AT ONCE.  
CONSULTATION FREE.
